FINAL INSTRUCTIONS

Start No: See Entry List

Your Time at MTC1: See Noticeboard

Thank you for your entry for the 2022 Dixies Challenge. Please read through these instructions thoroughly. You are reminded that this document carries the same force as the Supplementary Regulations. If you have any queries, do not hesitate to contact the organising team.

If for any reason, you find yourself unable to attend the event, please let us know ASAP as we may have a reserve list who would gladly take your entry.

Please ensure you print your Entry Pass in case requested on entrance to the ranges.

Your ACTUAL due time at MTC/ATC 1 can be found on the Start Time List on the Official Notice Board which will be situated at Rally HQ on Sunday morning.

Documentation and signing on is being done online. If you have not completed this already, please do so as soon as possible. The event noticeboard will be at scrutineering on Saturday and Rally HQ on Sunday.

Emergency Contacts Numbers:

Richard Lomax [Event Secretary] 07740 457084 (Saturday 30th 09:00-21:00, Sunday 1st from 07:00hrs)

Caroline Hopkinson [Entries Secretary] 07769 776193 (Saturday 30th 12:00-21:00, Sunday 1st from 07:30hrs)

1 AMENDMENTS TO REGULATIONS

Article 4 – Programme

Change: Scrutineering will now be 30/4/22: 14:00hrs – 17:30hrs and 1/5/22 (by special appointment) 08:00hrs – 09:00hrs

Article 9 – Awards

Clarification: All 11 classes are eligible for the First, Second and Third Overall awards. Any winner of these awards are not eligible for class awards. First, Second and Third awards across classes 8-10 will then be presented separately as the overall historic winners.

Article 22.1 - Officials

Delete: Competition Liaison Officer: Neil Dashfield

3 IMPORTANT REMINDERS

We kindly remind you that:

- The use of Motor Homes, trailers and service vehicles larger than a long wheelbase van must be discussed with the Entries Secretary.
- Only one service vehicle can enter the service area in addition to the competing vehicle due to space limitations. Please leave additional cars in the trailer park or Dixies Car Park. Please do not park on the through road through services as this must be always kept clear.
- Competitors must supply an environmental ground sheet, which must be placed under the competing vehicle during any service activities.
- You should ensure that all documentation (V5, MoT, competition licenses, clubcards etc) are brought to the event and available for inspection if required.
- All competing crews must attend a compulsory Drivers Briefing which will be held outside Rally HQ at 09:30hrs on Sunday 1st May 2022.
- If you happen to breakdown, please stay with your vehicle. We will endeavour to retrieve both you and your vehicle as soon as practicable. We would strongly suggest that you carry drinking water and a coat in your car. Do not enter any building within the Training Area, or climb any fences, buildings or bank; take care where you stand, the ground can be uneven.
- Alcohol consumption/possession within the venue is prohibited by the MOD Licence.
- The 'Warming of brakes' and the 'warming of tyres' within the confines of the service area is prohibited. Penalty as per event regulations.
- JD Tyres will be attending the event. Please contact them on 07968 020545 or 07966 466548 if you have any specific requirements.

4 SCRUTINEERING AND PAPERWORK COLLECTION

Scrutineering for all competitors, unless the Sunday premium was selected on your entry form, will take place on Saturday 30th April from 14:00-17:30 at CMJ Motors, Brecon. LD3 8LA. See the attached map for the detailed location of Noise and Scrutineering. You will be provided with your decals and numbers at Noise – please ensure they are fitted before presenting your car at scrutineering. After scrutineering, take your process card to the paperwork collection point at the same venue to collect your necessary paperwork including your Roadbook.

For competitor numbers 13, 15, 16, 21, 29, 33, 36, 40, 45, 49, 51, 52 and 58, who have arranged to scrutineer on Sunday morning between 08:00-09:00, this will take place near Dixies Corner at the top of the Steps. What3Words: ///cave.against.awestruck. You will be provided with your decals and numbers at Noise – please ensure they are fitted before presenting your car at scrutineering. After scrutineering, take your process card to the paperwork collection point which will be in Rally HQ in the service area to collect your necessary paperwork including your Roadbook.

This version of the finals does not contain necessary passes. Please check your e-mails or contact us to obtain the relevant passes.

5 ENTRANCE TO THE VENUE, TRAILER PARK AND SERVICING

Please find enclosed a pass to ensure you can gain access to the Ranges and are not asked to pay a fee for spectating.

The trailer park will be signposted, and is in the gravel car parks on the left hand side of the road (travelling Northbound) approximately 1.5 miles from the top of the dual carriageway at Llywel. Neither the event organisers nor the MOD will accept responsibility for trailers left in the trailer park.

Any additional vehicles must also be left here and should not be brought to the service area.

The MoD have asked us to ensure that there is no camping on the Ranges, and hence you must not access the ranges until Sunday Morning from 6am.

There are three sections within the service area, all on the left hand side of the road as you travel Northbound from the Trailer Park (approximately 4.7 miles along the road). Please do not use the section on the right, over the cattle grids, at the request of the MOD.

There will not be a huge amount of room in the service area, so please park sensibly and considerately for your fellow competitors and do not bring extra vehicles.

6 A REMINDER FROM OUR SCRUTINEER

All vehicles must comply with the stage rally regulations in section R of the 2022 Motorsport UK Yearbook. In particular, we draw your attention to the following changed regulations:

- K3.1.1 - Where a plumbed-in fire extinguisher system is required the vehicle must be equipped with an extinguishing system in compliance with FIA Standard for plumbed-in Fire Extinguisher Systems in Competition Cars (1999) or with FIA Standard 8865-2015. The system must be used in accordance with the manufacturer's instructions and with FIA Technical Lists n°16 or n°52. **In rallies, the minimum quantity of extinguishant for systems of FIA Technical List n°16 must be 3 kg.**
- K3.2.1 to 3.2.3 - Where a hand-held fire extinguisher is required the vehicle must be equipped with at least one fire extinguisher in compliance with 3.2.2 to 3.2.7 hereunder or with FIA Standard 8865-2015 (Articles 3.2.2 to 3.2.5 hereunder do not apply in the latter case)...
Minimum quantity of extinguishant:
 - **AFFF foam** (includes: FireSense, Zero 2000, F-TEC etc) **2.4 litres**
 - **Gas** (includes: Novec 1230, FX G-TEC/N-TEC, Viro3, Zero 360, Extreme etc) **2.0 kg**
 - **Powder 2.0 kg**
- R25.3.2 - The crew must also wear flame resistant overalls homologated to FIA 8856-2000, FIA 8856-2018 or FIA 1986 Standard, **and balaclavas to FIA 8856-2000 or FIA 8856-2018 Standard**. Competitors are also strongly advised to wear Flame Resistant gloves, socks, and underwear. Plastic shoes (such as trainers) should be avoided. Attention is drawn to (K.9.1.5 to K.9.3).

If you have any queries, please contact Paul Loveridge on 07831 656472.

7 EVENT FORMAT

The format of the event is detailed in your roadbook. Stages 3 & 4 are a repeat of Stages 1 & 2 and Stages 7 & 8 are a repeat of Stages 5 & 6.

To ensure there is no queueing on the centre road that passes through the service area, there is no Service Out control. Your due time out of each service will be your due time at the arrival control of the first stage in the loop of stages, and therefore the MTC is also the ATC. These controls are situated approximately 1.5-2 miles from the service area, so please leave sufficient time to arrive at the control.

At all times, if queueing for a stage, please park on the left hand side and leave room for access. Please do everything you can to ensure the middle road remains unobstructed and that any public using this road are not inconvenienced.

The Competitor Liaison Officer will be based at or around the service in control and service area all day and should be your first point of call for all queries.

8 ORGANISERS ADVICE

No water or fuel is available on site - you should bring enough for you and your vehicle for the day.

Please treat the chicanes with respect to avoid damaging them, your vehicle and putting marshals at danger.

A mandatory radio (including red flag) will be positioned at junction 8 in your road book all day (stages 2,4,5,7,9). Please mark your roadbook accordingly.

9 RESULTS AND AWARDS

You can view live timing results using this link <https://rallylivetiming.info/livetiming/event/1001180> . Awards will be presented in person, outside of Rally HQ, as soon as possible after the event.

We thank you again for your entry, and welcome you back to Epynt. If you have any constructive feedback before, during or after the event, we would very much like to hear it to see what we can improve next year.

See you at the weekend,

Neil Fuller, Clerk of the Course
24th April 2022

SERVICE AREA – J RANGE

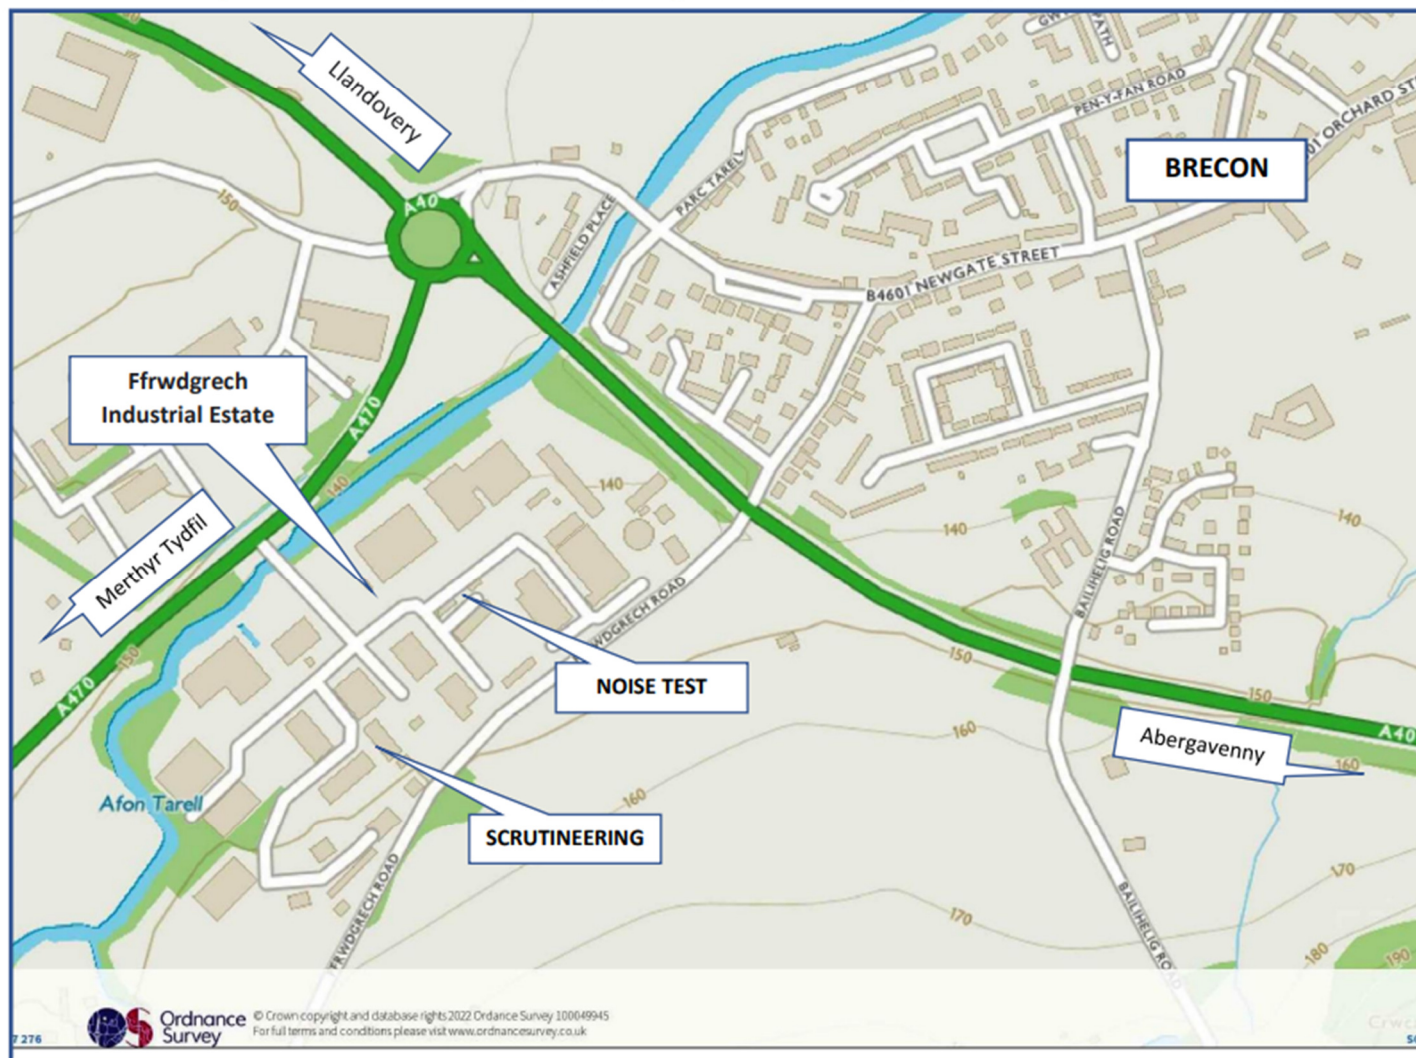

WHAT 3 WORDS LOCATION: ///maybe.goat.dissolves

LOCATION OF SCRUTINEERING AND NOISE TEST

Scrutineering: CMJ Motors, Ffrwdgrech Industrial Estate, Unit 12a Ffrwdgrech Rd, Brecon LD3 8LA – **What 3 Words:** [///instilled.fragment.care](http://instilled.fragment.care)

SERVICE AREA GUIDELINES

When participating in motor sport events and carrying out activities at Service Areas, entrants, competitors and service crew members should be aware of their own and other people's safety and wellbeing. The Organisers have allocated a service area of adequate size for the maximum number of entrants and taken all reasonable precautions to ensure these zones are suitable for anticipated service activities and the needs for entrants, competitors and service crew members.

A. GENERAL GUIDANCE

1. The service area zones provided offer relatively even ground, avoid setting up on uneven ground.
2. The Organisers have set a speed limited for the Service Area of 10mph, please adhere to this.
3. Ensure an environmental ground-sheet is in place before work commences.
4. If you erect awnings, pop-up tents or gazebos, please ensure they are securely constructed with sufficient ballast or anchorage to cope with wind conditions. If the Organisers deem any structures to be unsafe, you will be required to rectify or remove the structure.
5. Service vehicles should have an environmental spill-kit available and ready for use.
6. Fire extinguishers should be readily available at all time, particularly when welding, grinding or handling fuel or any part of the fuel system. The Organisers have provided fire extinguishers for use as necessary at the top of the service area at the black gate near results.
7. Please ensure you do not block for emergency vehicles at any time.
8. Vehicles should be supported by axle stands, chassis sill stands or ramps, all with recommended base plates, when raised in the air by trolley or any other types of jack. Engines should not be running when the vehicle is raised on stands. No other work on the car should be attempted, when raising or lowering of the car is taking place.
9. Where necessary, as part of the service i.e. changing of fuel tank, fuel pump, fuel filter, or any other item of fuel circuit, emptying and/or refilling of the fuel tank is permitted provided that:
 - a. The work is carried out with the knowledge of the organiser
 - b. A fire extinguisher with operator is on standby
 - c. No other work is carried out on the car during this operation
 - d. A safety zone is established within which all sources of ignition are removed
 - e. A minimum amount of fuel is used and any removed fuel is stored in a sealed container
10. Any personnel carrying out work should ensure that they adopt safe working practices at all times. Entrants/Competitors are responsible for all personnel in their team and in particular for supervising any young persons under the age of 18.
11. Trailing cables & hoses should not be allowed to create a trip hazard and should not be run across access or roadways unless covered by cable protectors
12. Whenever vehicle engines are being run, adequate ventilation must be in place.

B. STORAGE & USE OF PETROLEUM SPIRIT

1. Re-fuelling should be the last operation to be carried out before the vehicles leave. The vehicle should be off any support stands, have all four wheels on the ground, have all other work ceased and have no occupants, when refuelling commences. All sources of ignition must be removed from the area and an appropriate fire response should be prepared.
2. Ideally re-fuelling should be by hand pumping, rather than from hand held containers
3. Containers should comply with the relevant British Standard, should be marked "Petroleum Spirit-Highly Flammable" and be kept from any source of ignition.
4. Petrol is to be used as fuel only, not for any other purpose.
5. All vehicle re-fuelling is to take place in the open air. Smoking and any other sources of ignition, including live electrical items, must be prohibited and a safe area should be enforced with an operative on standby

with a fire extinguisher.

6. Refuelling operatives, including those standing by with fire extinguishers, should ensure they are wearing protective clothing, including gloves and eye protection.

C. HAZARDOUS SUBSTANCES

1. Some parts on historic vehicles, for example brake & clutch linings, contain asbestos. Competitors are encouraged to use non-asbestos substitutes where possible.
2. Where asbestos is used, every effort should be made to prevent dust being released.
3. Some mineral oils may cause skin cancers. Where contact does occur, contamination should be washed off immediately. The wearing of any contaminated clothing should be avoided.
4. Other substances may cause ill health. Competitors should obtain MSDS (material safety data sheets) from suppliers in advance so that they hold important safety information about the products

D. ELECTRICAL SAFETY

1. All electrical equipment should be maintained in a safe condition.
2. Extension leads & cables should be neoprene, oil resistant flexible cable.
3. All electrical equipment used externally should be weatherproof and tools should be insulated against electric shock and used with residual current devices.
4. Electrical equipment and hand tools should not be used where flammable vapours e.g. brake cleaner or fuel, are present

E. FIRE PRECAUTIONS

1. All competition and service vehicles should carry a suitable fire extinguisher.
2. Special consideration should be made before lighting any cooking appliance.
3. All sources of ignition should be kept away from any fuel store or re-fuelling area.
4. Fire extinguishers should not be moved from their known location, other than when in use.
5. In the event of any fire, a report should be made to the Organisers of the event before leaving the venue.
6. All entrants/competitors are encouraged to train their personnel in correct fire prevention and treatment procedures.

F. COMPRESSED AIR EQUIPMENT

1. Air blasts from over inflated tyres can cause severe injury. Tyres should not be inflated above manufacturers' recommendation figures.
2. Always stand clear when inflating tyres.
3. Compressors & air lines should be inspected regularly.
4. Compressed air cylinders should be stored and used to suppliers' recommendations

G. NOISE

1. Exposure to excessive noise may result in hearing loss, or other complaints. These may be short term, or after prolonged exposure, permanent.
2. Where exposure to noise is unavoidable, hearing protection should be worn

H. MANUAL HANDLING

1. Lifting, carrying and propelling of loads by bodily force is a major cause of industrial injuries. All entrants are encouraged to train their personnel in safe manual handling techniques and provide appropriate lifting aids.

I. WASTE

1. Entrants must remove all waste from the venue, including containers, packaging, tyres, oils etc. They must be disposed of it in accordance with environmental legislation.

J. VEHICLE SAFETY

1. A 10mph speed limit should be observed at all times in a Service Area, other than for Emergency Vehicles which may be attending an incident.
2. There may be pedestrians in Service Areas. Special care must be taken in these circumstances, to avoid collisions.
3. The use of mopeds, motorcycles, scooters, go-peds, quads etc. is forbidden in Service Areas.
4. Vehicles may only be driven by persons holding valid driving licences for that class of vehicle.

K. FIRST AID

1. Any person sustaining injury or illness, should seek treatment from the event emergency services, by initially reporting to Rally HQ, who will ensure the appropriate response

L. REPORTING OF ACCIDENTS & INCIDENTS

1. All accidents where any person sustains injury, or where damage to property occurs, should be reported immediately to Rally HQ.

M. FURTHER REGULATIONS & INFORMATION

1. Entrants/Competitors are reminded of their obligations to comply with the requirements of the appropriate sporting regulations at all times. These Guidance Notes should be read in conjunction with all relevant regulations and the HSE's guide HSG112 'Managing Health & Safety at Motorsport Events'.
